CME Integrated Mathematics ©2013 offers you a Common Core curriculum built specifically upon the Integrated Pathway for the Common Core State Standards. The program meets the dual goals of mathematical rigor and accessibility for all students through innovative, research-based instruction and a curriculum that is designed around problem-based, student-centered tasks.

- Authored by contributors to the background research for the Common Core State Standards
- 100% aligned to the Common Core Standards for Mathematical Content with Standards for Mathematical Practice embedded throughout the program
- Content ordered specifically for the Common Core Integrated Pathway course sequence
- “Low Threshold/High Ceiling” ensures success for all students

“In a real sense, the CME Project is about mathematical practice. Our emphasis on mathematical habits of mind, the core organizing principle of the program, is aimed at helping students develop precisely the kind of mathematical practices described in the Common Core State Standards.”

— Al Cuoco, CME Project Author

INTEGRATED CME PROJECT

STUDENT EDITION

- Problem-based, student-centered approach that develops mathematical habits of mind
- Promotes deep understanding of math concepts by focusing on connected ideas

TEACHER'S EDITION

- Wrap-around teaching notes put the information right where you need it
- Detailed, daily teaching plans with support for differentiating instruction

MOBILE ETEXT

- The Teacher and Student eTexts can be experienced on the go with the dynamic features of the iPad® or Android™ devices

DIGITAL RESOURCES INCLUDE:

PSN+ COURSES FOR EACH LEVEL

- Digital courses for each level on Pearson's SuccessNet Plus platform
- Assessment, planning, instruction and tracking integrated with curriculum

DIGITAL IMPLEMENTATION GUIDE

- Detailed overview of the CME Project
- Specific recommendations for implementing the program based on research and effective practices

ADDITIONAL PRACTICE WORKSHEETS

- PDF worksheets provide additional practice for every lesson
- Problem-solving and procedural practice to enhance achievement
- Can be printed displayed on interactive whiteboards for classroom activities

ASSESSMENT RESOURCES

- Online assessments aligned to each level
- Lesson quizzes, end of chapter tests, and cumulative tests simplify preparation time and help you monitor students' progress
- Chapter, quarter, and mid-year tests are located in one convenient location
- Assess, diagnose, remediate, and report student performance throughout the year

ADDITIONAL TEACHING RESOURCES

- Blackline masters of resources that can be used as transparencies or handouts

DIGITAL SOLUTIONS MANUAL

- Worked-out solutions for every exercise
- Use this manual to prepare for class and deliver rigorous and relevant instruction

HELPFUL STUDENT RESOURCES

- Help, anytime, for students and parents
- Access to multiple-choice practice with instant check throughout each chapter, homework help features, homework video tutorials and project extensions

TI-NSPIRE TECHNOLOGY HANDBOOK

- The Student Edition includes a Technology Handbook that explains how to use TI-Nspire functions with the explorations in CME Project

Please contact your Pearson Account Executive for more information on the Integrated CME Project.
